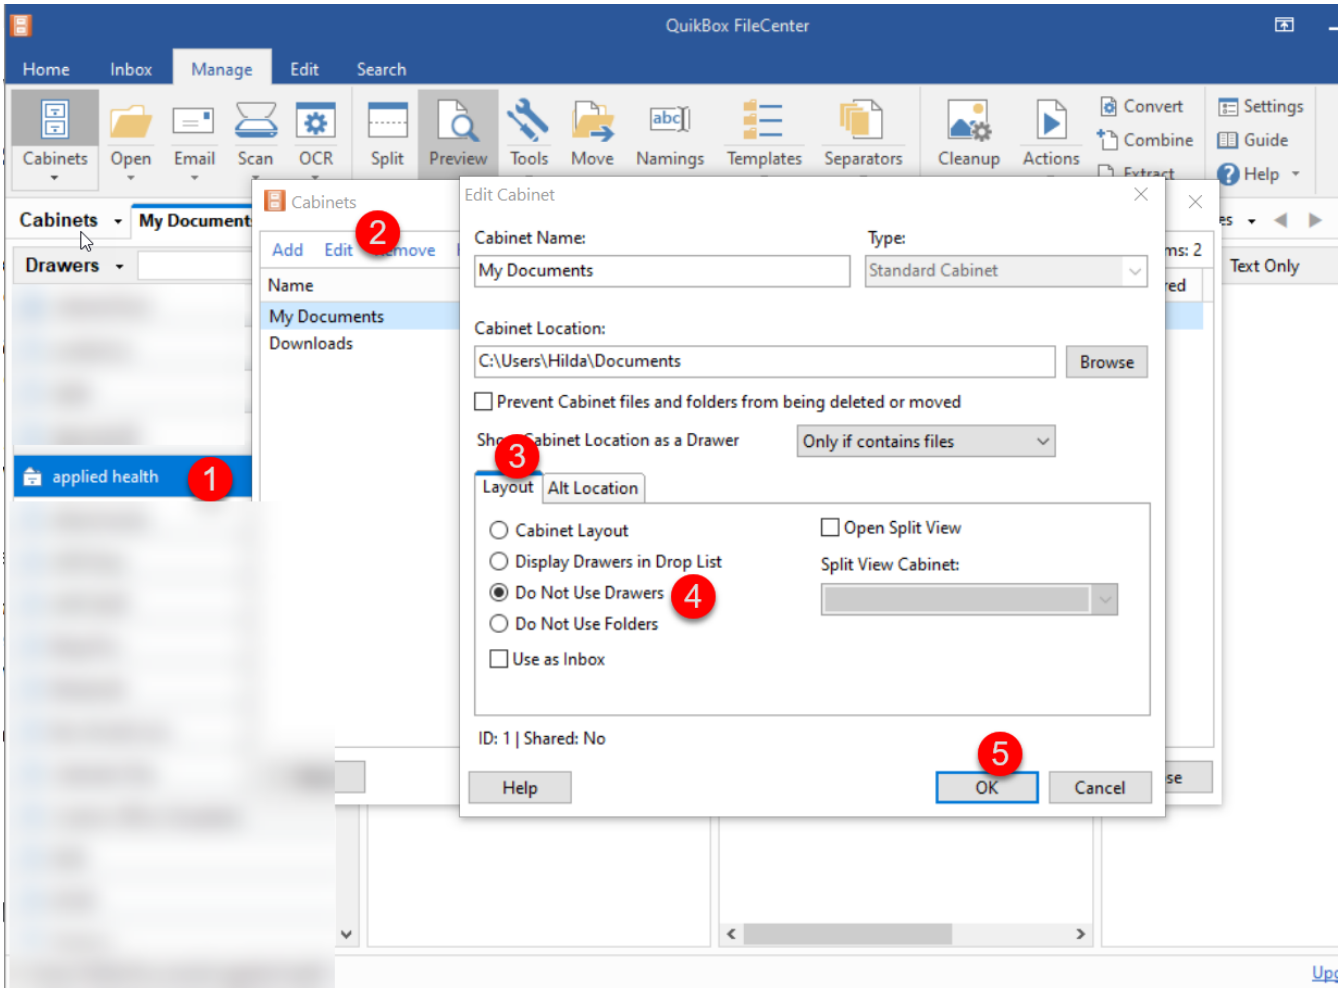
Use an Explorer Interface Instead of Drawers

If you prefer an Explorer interface to FileCenter's "drawer" approach, you have two options. We recommend you still use cabinets, but with the Do Not Use Drawers display style:

1. Click the Cabinets button
2. Select the cabinet on the list
3. Click Edit
4. Select the Layout tab
5. Select Do Not Use Drawers
6. Click OK



To use a full Explorer interface, do this:

1. Click Settings

2. Make sure General is selected on the left
3. Under Startup Manage Mode select Explorer
4. Click OK
5. Close and re-open FileCenter
